### Non-Hazardous Waste Paint Gun Cleaner

#### The Paint Gun Cleaner built with FUTURE requirements in mind.

The Bonny Marlin System<sup>®</sup> is a paint gun cleaner and solution recycler that cleans paint guns without using lacquer thinner or other hazardous solvents. The system cleans solvent based and waterborne paint. Only Bonny Marlin 6040 Solution or Bonny Marlin CAL Solution is used in the system. Both cleaning solutions are non-flammable, recyclable and non-hazardous. The CAL solution is formulated to meet the strict VOC requirements of the California South Coast Air Quality Management District.

Reduce Liability

When waterborne paint gun usage and stricter environmental paint gun cleaning regulations are mandated across the country, your Bonny Marlin system will comply. The Bonny Marlin system is a smart investment for now and for the future.

Fines/Penalties

The Bonny Marlin System<sup>®</sup>:

- Cleans solvent-based paint.
- Cleans waterborne paint
- Complies with strict California SCAQMD regulation
